EXPERIENCE

Publicis Touchpoint Solutions Indianapolis, IN

Pharmaceutical Service Representative, July 2009 to March 2016

Publicis is a contract sales company that partners with major pharmaceutical companies to support its products and established sales teams. Publicis works to define the company's biggest challenges and design a customized, cross-channel solution to communicate the company's message to the right customers, at the right times, and through the right channels. Publicis offers teams built on product training, compliance training, and analytics support to turn the company's goals and objectives into reality.

- Assisted sales team and won a service star award for our collaborative efforts to raise product sales within multiple territories.
- Developed two different territories through routing and planning and won multiple service star awards for techniques demonstrated to other team members within district to help with territory management.
- Consistently obtained performance metrics for bonus payouts and won several service star awards for regularly hitting KPIs and providing tips to teammates to boost district numbers.
- Adept at both product and service training and was selected on many different occasions to present my knowledge and skills to my district and region during training meetings.
- Took on leadership roles within team setting to oversee a specific drug or new process and report the most important information to the rest of the team.

Walgreens Fishers/Indianapolis, IN

Management Intern/Assistant Manager, May 2006 to July 2009

Walgreens is a global, pharmacy-led health and well-being enterprise. It provides customers with everything from medical supplies including prescription drugs, wellness services such as vaccinations and products both seasonal and convenience in nature.

-
- Helped launch new store in Fishers by completing various activities such as building fixtures, stocking shelves according to required designs, and planning new displays to maximize profitability.
 - Managed, trained, and coached over 30 employees
 - Responsible for security processes and training such as accounting procedures, cash management, reducing shrink/theft, and promoting efficiency practices.
 - Obtained pharmacy technician license after completing the training program and passing the certification test.

Marsh Supermarkets Fishers/Bloomington, IN

Overnight Stocker/Customer Service Representative, June 2004 to May 2006

Marsh is a local grocery store that is committed to serving its customers and their changing needs while supporting and improving the communities they exist in.

- Learned the power of networking which allowed the transition of a summer job into part-time employment throughout college.
- Observed the value of hard work and time-management through working different shifts back to back.

Toys R Us Indianapolis, IN

Sales Associate, June 2001 to August 2004

Toys R Us is the world's leading dedicated toy and baby products retailer. They strive to create a world-class experience their customers and help them make the best possible choices for their children.

- Increased sales by listening to the customers to understand their needs and helping them get everything they needed.
- Developed a mechanical aptitude by building everything from riding toys including bikes and power wheels, playsets, sports equipment, and furniture.
